

ABDUL RAHEEM

Technical Project Manager · Scrum Master · Agile Delivery

Lahore, Pakistan (UTC+5) · +92 331 6693499 · pro.engrraheem@gmail.com

LinkedIn · Portfolio: abdulraheem-pm.vercel.app

PROFESSIONAL SUMMARY

Technical Project Manager and **Certified Scrum Master** with **7+ years** leading distributed Agile teams across the **UK, Saudi Arabia, and the United States**. Background in software engineering and QA. Known for turning ambiguous requirements into clear delivery plans, protecting engineering focus, and **shipping predictable releases**. Experience spans SaaS platforms, logistics systems, learning platforms, data pipelines, and e-commerce tooling.

CORE COMPETENCIES

Delivery: Agile / Scrum / Kanban, Sprint Planning, Backlog Refinement, Release Planning, Risk & Dependency Management, Stakeholder Communication, Scope Control

Tools: Jira, Azure DevOps, Confluence, ClickUp, YouTrack, Slack, Microsoft Teams, Notion

Technical Foundation: REST APIs, System Design Fundamentals, SDLC, Basic SQL, JavaScript, HTML/CSS

Strengths: Requirements clarity, cross-timezone coordination, QA process improvement, predictable shipping, calm execution under pressure

PROFESSIONAL EXPERIENCE

Technical Project Manager / Scrum Master

DG Cars — United Kingdom (Remote) | Aug 2025 – Present

- Lead Agile delivery for a high-velocity mobility platform; own **sprint planning, timelines, stakeholder communication**, and delivery priorities across distributed engineering teams.
- Translate business requirements into clear **user stories and acceptance criteria**; run backlog refinement with developers and QA to remove ambiguity before work starts.
- Own Jira boards, risk and dependency tracking, **release planning**, and delivery reporting so milestones remain visible and on track.

Project Manager / QA Lead

BrainCell — Saudi Arabia (Remote) | May 2024 – Jul 2025

- Managed software development and QA teams across **multiple concurrent client projects** using Agile delivery practices.
- Owned sprint planning, progress tracking, release readiness, and stakeholder updates; improved QA processes that **raised overall software quality**.
- Coordinated testing, backlog refinement, and documentation so releases met quality gates without last-minute surprises.

Project Manager

App4orce — Pakistan | Mar 2023 – Apr 2024

- Managed **end-to-end delivery** of web, mobile, and SaaS products; coordinated developers, designers, QA, and clients through full project lifecycles.
- Led sprint planning, backlog refinement, release planning, risk management, and reporting to keep delivery schedules intact.
- Worked directly with stakeholders to define scope, prioritize features, and convert business needs into actionable development tasks.

Project Manager

Karigar Web Solutions — Pakistan | Aug 2020 – Feb 2023

- Directed **50+ international client projects** spanning WordPress tools, mobile apps, Chrome extensions, and internal platforms.

- Led a cross-functional team of **20+ engineers, designers, and QA**; maintained a **95% on-time delivery rate** across the portfolio.
- Introduced structured Scrum practices that replaced ad-hoc workflows with **predictable sprint and release cycles**.
- Owned client communication, requirement gathering, documentation, task tracking, and delivery monitoring; received **Best Performance Certificate** for complex deliveries under tight timelines.

Project Manager

TechnoSofts — Pakistan | Jan 2020 – Jul 2020

- Managed WordPress and e-commerce projects for international clients from requirements through deployment; coordinated developers, designers, and QA while owning schedules and milestones.
- Ran client demonstrations, managed feedback loops, and delivered **10+ custom web solutions on time** without quality trade-offs.

QA Engineer

HI Tech IT Company — Pakistan | Jan 2019 – Dec 2019

- Executed manual testing, wrote test cases, documented defects, and validated fixes across the full software development lifecycle; partnered with developers and PMs to improve release quality.

SELECTED DELIVERIES

Enterprise Learning Platform with Guardrailed AI Assistant

- Led delivery of an LMS with live classes and an AI tutor constrained to verified content. Result: **65% of tier-1 student questions resolved autonomously**; **99.4% platform uptime** during concurrent exams.

High-Throughput Marketplace Intelligence Engine

- Owned planning and delivery of a real-time pricing and product data pipeline across competitive marketplaces. Result: **500K+ daily SKU data points** extracted and normalized with **<0.5% pipeline error rate**.

Shorex Circular Recycling & Logistics Platform

- Took full delivery ownership of a logistics and inventory system that replaced fragmented spreadsheets. Result: **40% reduction in pickup dispatch latency** and **100% automated inventory reconciliation**.

Commercial Equipment Rental & Subscription SaaS

- Led release and stakeholder management for a rental and subscription platform. Result: **98% on-time equipment turnaround tracking** and **zero billing discrepancies** across 12 consecutive cycles.

EDUCATION & CERTIFICATIONS

Bachelor of Science in Software Engineering · Superior University, Lahore, Pakistan · 2018

Professional Scrum Master I (PSM I) · **Google Project Management Certificate** · PMP (in progress)
